Week 2: Dew Claws Removed

Week 4: Dewormed, Bordetella, Ear Mite

Week 6: Bordetella, Ear Mite, DA2PP

Week 8: Dewormed, DA2PP

Week 12: Rabies Vaccination, DA2PPVL

Prior To Shipping: Bath and Dip, SDM & MTZ, Fastrak® Canine Microbial Gel

After Shipping: Fastrak® Canine Microbial Gel, We highly advise this after shipping to help the puppies stomach to adjust. We have it available on our website at <https://www.kelsaykennel.com/k9-supplements/>

ATTN: We only give the vaccinations up to the date we ship so for example if the puppy is 9 wks old why you will have to give the 12 wk once yet. Ask your vet what he recommends for a yearly vaccination and deworming, etc. schedule.
